Theme

This year's theme is "Air Sports in Harmony with Nature." The beauty of the earth is never clearer than when seen from the air. Every day, thousands of people flying in airliners look at the earth with a new perspective from above. Another group of boys, girls, men, and women involved in air sports are fortunate to have a special view of the grandeur below them as they soar in gliders or float through the air in balloons. Others feel the rush of air as they parachute down to a beautiful field or cross the sky in an ultralight or helicopter.

From above, the fullness of nature is seen in ways unknowable from the ground. Helicopters give tours of the inaccessible rivers and canyons as balloons float across home towns, each giving new insight into how land, water, animals, and people share their environments. From the air, one is able to take pictures and film land that would otherwise be unseen. Aircraft do this without the need for roads. An airport or open field will do for the intrepid aviator. So, grab your favorite pen or brush and capture the connection between land and air.

Good Luck! **We encourage you to visit an airport near you that is having an aviation event and experience for yourself the joys aviation has to offer.** Art work will be judged, at least in part, for its creative use of this year's **theme** in relation to the aviation world.
